About this Course

Communication is as old as the existence of human beings. Words are not the only way of getting your message across. Many times you can sense the mood your colleague or friend is in. How do you think you can figure it out? It is because communication involves not just words, but also actions, body language and facial expressions to mention a few.

In this course we will help you understand what communication is and why we communicate. You will also understand non-verbal communication in detail.

On completion of the course, you will learn how to communicate effectively using a combination of verbal and non-verbal communication skills.

By purchasing or subscribing to this program, you agree to abide by the Usage Policy, Privacy Policy, Security Policies and any Terms and Conditions mentioned on this portal.

Preparations before an Interview

Steps to follow to ensure success in an interview for a job

About this Course

All of us attend interviews with the aim of getting the job. We do fail at times, but we don't really understand the reason behind it. Many a time an interview turns into a discussion based on how we handle questions that are posed to us.

An interview is a formal meeting for obtaining information from an individual through questioning. It is a perfect place to showcase your skills by moulding questions and answers for exchanging ideas. Thorough research to get to know more about the organisation prior to an interview helps. We need to understand that handling an interview is a skill where practice and preparation improves the prospect of success and getting the job offer.

This course will help you build confidence to face tough interviews.

By purchasing or subscribing to this program, you agree to abide by the Usage Policy, Privacy Policy, Security Policies and any Terms and Conditions mentioned on this portal.

Who would benefit?

This course has been designed for freshers who are preparing to take up employment. It could also help those with some experience and who are
