Learning is life, and life is learning. Life offers various challenges and we cannot let fear stop us from learning. I decided that I had to take a stand and be brave. There was a point in my life, when I felt that I was no longer growing. I was relating perfectly to that expression, "If you're not growing, you're dying." English Language plays an important role in our life. English is the language of our international communication in all areas, such as politics, science, media or art and it is often the language of entertainment as well as socializing. It is understood by many people around the world since it is the most spoken language. Big companies hire professional staff. Having a good command of English helps us to have more opportunities in life, first of all, our career. We are likely to have more chance of finding a good job or to get our business of the ground. Taking this in view we have taken initiative to run certified courses as below
